EDUCATION

Bahir Dar University

Bachelor of Science (B.Sc.) in Software Engineering

Bahir Dar, Ethiopia

2026

PROJECTS

Personal Portfolio Website | Technologies: HTML • CSS • JavaScript

- Designed and developed a responsive personal portfolio website to showcase my technical skills, projects, and professional journey as a Software Engineering student.
- Created a clean, modern, and user-friendly interface with responsive layouts for desktop and mobile devices.
- Implemented interactive features using JavaScript and managed project development using Git and GitHub.

BrightStart Kids (In Progress) | Technologies: HTML • CSS • JavaScript • UI/UX Design

- Designed an interactive educational website concept focused on helping kindergarten children learn letters, numbers, colors, and stories.
- Created a child-friendly interface with engaging layouts and simple learning experiences.
- Applied UI/UX principles to improve usability and create an enjoyable learning environment.

Ethiopian Transportation Management System (In Progress) | Type: Software Engineering Project

- Developing a transportation management system designed to improve bus ticket booking and passenger management.
- Creating digital solutions for passengers and ticket officers to manage routes, ticket reservations, passenger records, and daily bus operations.
- Applying software engineering principles, system analysis, and MySQL database design throughout the development process.

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript, Java, Python

Database: MySQL

Design: UI/UX Design, Figma

Development Tools: Git & GitHub, Visual Studio Code
